

MADHURI EMMIDI

Detroit, MI | +1 248-697-7676 | madhuriemmidi1@gmail.com | linkedin.com/in/emmidi-madhuri-2madhu02

SUMMARY

Electronics & Communication Engineer and Information Systems graduate student with foundations in RF, antennas, and signal processing, plus hands-on software, debugging, and data analysis experience. Patent holder. Comfortable working across hardware and software teams in fast-paced, agile environments.

EDUCATION

Central Michigan University — M.S., Information Systems

Mount Pleasant, MI | Expected May 2026 | GPA: 3.57/4.00

B.E., Electronics & Communication Engineering

Chennai, India | Aug 2019 – May 2023 | GPA: 9.0/10

TECHNICAL SKILLS

RF / Hardware: Antennas, amplifiers, mixers, phase shifters, S-parameters, VNA and spectrum analyzer basics, PCB layout, soldering and board bring-up

Programming: Python, SQL, JavaScript, HTML, CSS, Git

Data & Analytics: Excel, Tableau, data cleaning, dashboards, reporting

Tools & Methods: Agile/Scrum, defect tracking, log analysis, testing, technical documentation

EXPERIENCE

Office Assistant — Merrill Hall Dining, Central Michigan University

Mount Pleasant, MI | Aug 2024 – Present

- Handle daily front-office and operational tasks for the Merrill Hall dining facility, including scheduling, supply tracking, and customer assistance.
- Coordinate workflow across 10–15 staff members during high-volume shifts to keep service consistent.
- Support 200+ customers per shift while maintaining quality, accuracy, and a professional environment.

Software Engineer Intern — Nippon Electronics Company

India | Sep 2022 – Sep 2024

- Built and maintained internal software modules used by engineering teams.
- Debugged and tested applications by analyzing logs and resolving defects, improving overall reliability.
- Worked in agile sprints with senior engineers on feature development and technical documentation.

Data Analyst Intern — DLK Technologies

India | May 2023 – Jul 2023

- Analyzed 10,000+ records to surface trends and actionable business insights.
- Built 3+ dashboards in Excel, Tableau, and SQL to support decision-making.

PROJECTS

Beam Steering Visualizer

Interactive web tool that visualizes phased-array beam steering in real time; users adjust element spacing and phase to see how the radiation pattern changes. Live demo: fantastic-basbousa-92dbbd.netlify.app

Post-COVID Personal Protection Device (Patent)

Designed a wearable personal safety device end-to-end during undergrad — selected sensors, designed the electronics, and built the enclosure. Granted a patent.

To-Do Web App

Lightweight task management app built with HTML, CSS, and JavaScript with persistent browser storage. Live demo: madhuemmidi.github.io/todo-app
